<b>Access allocation</b>										
Above rates apply for first 6 hr per week per PI/group/account/billing address.										
When demand exceeds supply, the rate for time up to the next 6 hours will carry a 25% surcharge; the next 6 hours will carry a 50% surcharge										
No shows: Reservations cancelled less than 24 hours in advance will be charged at the full rate.										
Orphan rates: blocks less than two hours between other blocks: half price										
If we are able to book all prime time, no single user may book more that 18 hours of prime time per week										
If we are able to book all prime time, the first morning booking must begin at 0700.										
There will be no upper limit on the amount of prime time that can be booked on the Leo.										
Anyone found to be inaccurately recording usage time will be required to have (and pay for) supervision during all use for the next four months										
Under normal circumstances time may not be booked more than two weeks in advance. (This is to keep people from blocking out large blocks of time "forever"										
Once we get a handle on demand, the rules will doubtless change, probably several times, in an effort to maximize access to all and spread the pain.										
Suggestions for improving the rules will be cheerfully accepted and may be implemented, except those of the ilk "Change the rules so I get more prime time."
