

The formula for the perfect pass.

$F = \text{Force}$

impulse = change in momentum

F
on basketball

Impulse =
Force x Time
 $(I = F t)$

Momentum =
Mass x Velocity
 $(p = m v)$

F
back on Kim

Newton's 3rd Law

*"For every action
there is an equal and
opposite reaction"*

Adam Beehler
U Physics and Astronomy

F
*foot against
floor*

F
floor against foot
