

Plan of Study-PER/AER Track

Version update: Oct. 2023

This informs department staff about the completion of courses required for your degree program.
Please submit another form if your degree plans change.

Student Name: _____

UNID: _____

Course Number	Course Name	Sem. Planned	Sem. Met	Waived
PHYS 7110	Classical Mechanics/E&M I			
PHYS 7220	Quantum Theory I			
PHYS 7820	Faculty Research Overview			
PHYS 7830	Professional Development Course			
PHYS 7140	Research & Teaching in Physics Education			
PHYS 7310	Statistical Mechanics (PER)			
PHYS 7130	Radiative Processes (AER)			
One advanced course in research methods or Physics/Astronomy				
Elective 1: Quantitative Research Methods**				
Elective 2: Qualitative Research Methods**				
Elective 3: Critical Studies Course**				
Additional Electives:				
Additional Electives:				
PHYS 7970	PhD Thesis Research*	# credits completed & current enrollment		

** See graduate handbook for
elective details

*14 C.H. Required

Electives to be selected in consultation with the
committee

Explanation of waived courses:

Additional Comments:

The committee has met the quorum and approved the above outline plan of study by majority vote

Chair: _____

Date: _____

Committee members: _____
